Ι

- 6. Which answer shows the areas where coastal features, low land relief features, highland relief features depicted on 1: 50 000 metric sheet of Sri Lanka are found respectively.
 - i. Aluthgama, Rakwana, Dambulla

v. Kalkuda, Katharagama, Mahiyanganaya

iii. Mathugama, Kekirawa, Galle

- ii. Jaffna, Kuliyapitiya, Rathnapura
- iv. Batticaloa, Kekirawa, Dambulla

(.....)

7. Vector data model and Raster data model in Geographical Information System are depended on,
 i. line
 ii. point
 iii. polygon
 iv. zone
 v. coordinate
 (.......)

8. Select the answer that shows centres respectively denoted by the letters A, B, C in the figure which consist basic components of Global Positioning System (SPS)

- i. Master control centre, monitoring stations, Antenna stations
- ii. holding station, Antenna station, receiving station
- iii. Master control centre, controlling centre, Antenna stations
- iv. user centre, space station, control segment
- v. Master control centre, monitoring stations, space centre
- 9. What has become a multifunctional tool that can present geographic information in a very useful and efficient way?
 - i. topographic mapii. digital mapiii. thematic mapiv. isopleth mapv. dot map(.......)
- 10. The thematic map that have prepared for representing export and import direction in a certain country is
- i. compound bar graph ii. colour map iii. dot map iv. linear map v. flow map (.....) The Conrad discontinuity zone can be seen in 11. i. the land zone ii. continental shelf zone iii. upper mantle zone iv inner core zone v. ocean zone (.....) 12. A collection of animals or plants that belong to the same species that live in a specific area for a specific period of time is known,

i. as a species	ii. as a living community
iii. as the population	iv. as the ecosystem
v. as the biome	

(.....)

(.....)

13. The rock zones of Sri Lanka and the abundant rocks in those regions are given below. What is the answer if they are matched correctly?

	answer in they are matched correc	J			
	Rock zone	Roe	ck type		
	01. Jurassic	A-lime	estone rock		
	02. Vanni complex	B-gree	et rock		
	03. Miocene limestone belt	Ũ	delite rock		
	04. Highland series		gmatite rock		
	i. A B C D ii. D C A B	iii. B D A C	iv. DABC	v. DBAC	()
14.	The country that is famous for get	ms except Brazil in the	e word is,		
	i. Sri Lanka	ii. India	iii. Australia		
	iv. South Africa	v. Canada			()
15.	Select the answer that shows a pro-	cess of river erosion ar	nd a river transpor	tation respectively	
	i. abrasion solution	ii. Co	rrasion, traction		
	iii. plucking, corrasion	iv. abrasion, t			
	v. hydraulic action, solution	_ · · · · · · · · · · · · · · · · · · ·			()
16.	Select the correct answer for the New Zealand to the north through			to south Americ	a and from

- i. African rift valley zone
- ii. Mid Atlantic ridge iv. Himalaya zone

releif

- iii. zone around Mediterranean zonev. Peri pacific zone
- 17.

perent rock

Select the answer that shows factors as A, B, c in the above figure which represent factors affecting soil formation ,

- i. Sun light, pebbles, process of wind
- ii. Human activities, climate, soil organism
- iii. Vegetation, climate, agro-chemicals
- iv. drainage, organic fertilizer, time
- v. chemical fertilizer, irrigation, human activities

A

- 18. Minerals that consist of physical features such as hardness, weight is known as,
 - i. energy mineralsiii. non-ferrous

ii. non metallic minerals iv. metallic minerals

v. siliceous minerals

(.....)

(.....)

(.....)

 19. The answer that contains onli i, Sheild, earth basin, ocean ii fold mountain, fault, con ii. plateau, fault, continenta iv. overfold, recumbent fold v. host, rift valley, sheild 	n basin ntinental shelf al shelf	ogenic movement (vertical earth 1	novement) is ()
20. Which is formed by the sedimi. mid oceanic rideiii. abyssal plainv. continental shelf	ii. flood	•	ope ()
 21. Select the answer when rivers from a spring from a area with heave melting snow or glacid lake DCAB 	A. Volg y rain fall B. rivers c. Nile D. river ii D B	a s in dry zone in Sri Lanka river s in wet zone of Sri Lanka A C	
iii. D B C A v. B D A C	iv. A B	DC	()
 and parallelly to the beach a i. longshore drift, backwar iii. high tide, low tide v. subcurrent, traction 23. What is currently believed Badulla, Kaluthara, Manner	are accurately shown sh to be the cause of widesprea areas of Sri Lanka. n Colombo metropolitan area	ansported in the coastal region pe ii. swash, backwash iv. backwash, longshore drift d smog in atmosphere in Coloml	()
iv. destroying forest	dustrialization in neighboring	India	()
24. Select the answer that she activities such as aviation, the i. temperature iv. humidity	*	on that has the strongest impa iii. rainfall	ct on human ()
25. What is the phenomenon in and is sent upwards?i. transpiration iv. precipitation	which a large portion of the ii. overuse v. Albedo	visible light from the sun reflects iii. cloud formation	s off the earth ()
 26. World population become st i. 1970 AD iii. 2011 AD v. 1927 AD 	table after ii. 1974 AD iv. 1987 AD		()

27.	Choose the answer that correctly includes the number of births and deaths per minute according to the Word population data in 2015	:
	i. 278, 10 ii. 109, 23 iii. 278, 109 iv. 278, 169 v. 169, 109 ()	
28.	According to the projected data chart, the top 10 most populous countries in the world by 2050 that belong to the continent of Africa are, i. Ethiopia, Democratic Republic of the Congo, Nigeria ii. Nigeria, Democratic Republic of the Congo, Ethiopia iii. Nigeria, Egypt, Mali iv. Ethiopia, Gabon , Angola v. Nigeria, Ethiopia, South Africa ()	
29.	The choice that includes a demographic phenomenoni. disabilityii. povertyiii. agingiv. food securityv. gender()	
30.	According to the population Census, what is the answer of a couple of Asian countries, respectively, among the developing countries with the highest crude birth rate i. Pakistan, Sri Lanka ii Bangaladesh, Chinaiii. China, India ()iv. Pakistan, Bangaladeshv. India, Nepal()	
31.	What is the province inhabited by 28% of the total population of Sri Lankai. North central provinceiiwestern provinceiii. Northern provincew. North western provincev. Southern province()	
32.	One of the reasons for decrease in Sri Lanka's poverty coefficient or Gini coefficient to 0.48% in 2012 is i. controlling population ii. government employment iii. distributing income equally iv. improving the health v. implementing various project for low-income families ()	*
33.	 The diagram shows the location of a polar ocean platform across the borders of countries in Europe. Select the answer that is named correctly. i. From Chicago via Pittsburg ii. The Blue Banana zone stretches from Manchester to northern Italy. iii. The Golden Banana region from the Mediterranean coast to Malaysia. iv. The Golden Banana region from Poland in central Europe to Austria. v. Urban zone stretches from China to Pittsburg () 	
34.	 v. Orban zone succedes non-clina to Fittsburg The following are some of the most common environmental problems associated with urbanization in the world. What is the answer that includes areas where they are most commonly identified. A- A country with high air pollution B- The city is in trouble for not disposing urban waste properly. i. Kulna city, Raj city in Bangaladesh ii. Manila city in Philippines, Kulna city iii. Tianguis city in China, Rajhashi in Bangaladesh iv. Manila city in China, New Delhi in India v. Kampala in India, Rajhashi in Philippine. 	

- 35. The adverse environmental impact caused by the use of chemicals in Agriculture is,
 - i. growth of pests harmful to crops
 - ii. management fungal control
 - iii. algae growth in reservoirs
 - iv. weed control which is detrimental to cultivation
 - v. relative decline in yield
- 36. The world Bank and the Urban Development Authority have identified the real level of urbanization in Sri Lanka as assumed is
 - i. 48 % ii 74.4 % iii. 45 % iv. 18.2 % v. 66 % (......)
- 37. What is the strongest physical factor influencing the concentration of Sri Lankan settlement in coastal areas?
 - i. Kingdoms migrating Southwest.
 - ii. Implementing development projects.
 - iii. Urbanization and industrialization.
 - iv. The development of river valley civilization.
 - v. The arrival of western nations.

38. The term 'Bos-Wash' to introduce the city from Boston to Washington in the United states was presented by,

- i. Carl Ritter
- ii. Dickinson
- iii. Jhon Gottman
- iv. Patrick Geddes
- v. Robert Bresick
- 39. Select the answer that shows two extraction industries.
 - i. iron and steel, cement
 - ii. lime, coal
 - iii.petro-chemical, cement
 - iv. Coal, Petroleum
 - v. Petroleum, iron and steel
- 40. A mineral extracted from surface excavation is
 - i. iron ore
 - ii. coal
 - iii.granite
 - iv. petroleum
 - v. graphite

<u> Part - II</u>

• Answer the following questions from the 1: 50 000 topographic map section of Sri Lanka provided to you

i	Name the physical feature which help in watering the area of the map.	(m. 01)
ii.	Name two provinces and two districts that belong to the map area.	(m. 01)
iii.	Name three human activities that take place under land use.	(m. 01)
iv.	Name physical features shown by AB, CD, EF	(m. 01)
V	Explain the relationship between main road and relief.	(m. 01)
vi	Explain with examples three differences between the northwest quarter and the southeast of	quarter in
	the map area.	(m . 01)
	iii. iv. v	 ii. Name two provinces and two districts that belong to the map area. iii. Name three human activities that take place under land use. iv. Name physical features shown by AB, CD, EF v Explain the relationship between main road and relief. vi Explain with examples three differences between the northwest quarter and the southeast of th

- 02) Mark and name the following using the standard colours and symbols on the world map provided to you.
 - 1. Andes mountain range
 - 2. Amur river
 - 3. Kalahari Desert
 - 4. Bay of Mexico
 - 5. Agulhas current
 - 6. Lake Victoria
 - 7. Ruapehu volcano
 - 8. Tropic of Cancer
 - 9. The country that reported the highest number of new Corona virus infections in Europe last December.
 - 10. The city, where the headquarters of the world Human right organization is located? (m . 10)

7

Part III

(m. 2)

(m . 3)

03) i. Explain the difference between data and information.

(surveys / continuous data / internet / questionnaire / inquiries / primary data / aerial photograph / measurement)

- iii. Briefly describe two challenges faced by a researcher in collecting primary data. (m . 4)
- iv. Briefly explain the two advantages and a disadvantage of using secondary data. (m . 6)
- 04) i. What is a topographic map?
 - ii. A model of a topographic map of 1:50000 scale is given below. Answer the following question based on that. (m. 5)

- a) What is indicated by letter B
- b) Name the area indicated by the letter D and write two information mentioned there.
- c) Name two information mentioned in the area indicated by the letter F

iii. Briefly explain the two benefits of using a topographic map (m . 4)

- iv. Explain two similar features that can be identified when using a topographic map and a digital map (m . 5)
- 05) i. Name the new methods that contribute to digital mapping, a multifunctional tool that can present geographical information efficiently. (m . 3)
 - ii. Write four common features of the new cartographic methods. (m . 4)
 - iii. Briefly describe two problems with using digital maps rather than using topographic maps.
 - iv. Briefly explain two reasons why the current use of maps is spreading rapidly around the world.

(m . 3)

(m. 2)

(m. 5)

- 06) i. Briefly explain the remote sensing process.
 - ii. The processes that take place in Remote Sensing is given in the following diagram. Name A-F processes. (m . 4)

- Briefly explain with the help of diagram above how information needed for Remote Sensing is get by satellite technology. (m . 4)
- iv. Briefly describe the workings of two field that use remote sensing. (m . 5)

Geography II

Three Hours

- This paper consists of two pars
- Answer five questions selecting at least two questions from each part

Part I

Physical Geography

- i. Explain what a system is. (4 marks) 01) ii. Name three type of systems that can be classified according to the nature of function and energy transfer and provide examples for each. (4 marks) iii. Explain with three factors how ecosystems in Sri Lanka have been threatened. (6 marks) iv. Explain the three measures taken by the Government to protect the endangered and degraded ecosystem of Sri Lanka (6 marks) Briefly describe two ways in which limestone is formed (4marks) 02) i. Name the four limestone (Karst) region in the world. (4 marks) ii.
 - iii. Describe the formation process of three karst landforms shown in the following figure.

(6 marks)

iv. Explain with examples 3 factors that contribute to groundwater pollution in Sri Lanka.

(6 marks)

- Name three main factors that influenced the climate in Sri Lanka 03) i. (3marks)
 - ii. Describe three short term effect of rainfall. (6 marks)
 - a) Name sub- types of Tropical climate (A) according to Koppen's climatic classification iii.

(3 marks)

- b) Name the type of climate found in Sri Lanka and make an introduction about it. (2 marks)
- iv. Describe with examples how rainfall pattern in Sri Lanka affect for people's life (6 marks)
- 04) Briefly explain the activism of volcanism i.

(3 marks)

Distribution of following volcanoes are shown in the map. Rewrite them with the correct ii. letters.

Fujiyama	St. Helena	Mona loa	Etna
Mayon	Vesuvius	Crakatoa	Hecla

- iii. Describe with diagram formation process of three intrusive volcanic landforms (6 marks)
- Describe with two facts the economical value of land area associated with volcanoes.(4 marks) iv.

Part II Human Geography

05). How international migrants are divided into developed and developing regions 1990 - 2017

Year	Total number of international migrants (million)	In developed countries		In developing	countries
		No.of	As a	No of	As a
		migrants(million)	percentage	migrants(million)	percentage
1990	152.5	82.4	54.0	70.1	46.0
1995	160.7	92.3	57.4	68.4	42.6
2000	172.6	103.4	59.9	69.2	40.1
2025	190.5	116.3	61.0	74.2	39.0
2010	220.0	130.7	59.4	89.3	40.6
2015	247.6	140.3	56.7	107.3	43.3
2017	257.7	146.0	56.7	111.7	43.3

Source:- (2017) N.K.Dangalla, Human geography study

	i.	Write four special features of the countries with the highest number of migrants in the years		
		2000 – 2017 according to the international migration pattern	(4 marks)	
	ii.	Name the four major Asian countries that provide migrants in the Asian region	on, which is the	
		main geographical region that provides international migration	(4 marks)	
	iii.	Explain briefly 3 factors influencing international migration.	(6 marks)	
	iv.	Discuss the uniqueness of three positive impacts on destination countries.	(6 marks)	
0()	:	What is unhamization	(2 m order)	
06)	i. 	What is urbanization.	(3 marks)	
	ii.	Name five fields that extend from the center of urbanization to the surrounding a		
			(5 marks)	
	iii.	Describe how the expansion of two field you mentioned above takes place.	(6 marks)	
	iv.	Discuss three problems associated with urbanization.	(6 marks)	
07)	i.	Name three areas where evidence of Prehistoric settlements existed	in Sri Lanka. (3 marks)	
	ii.	a) Name three type of rural settlements found in Sri Lanka.	(7 1)	
		b) Describe with examples the features of one of settlements mentioned above.		
	iii.	Briefly describe three criteria that can distinguish a rural settlement from an urba		
			(6 marks)	
	iv.	Describe the features of rural settlements in Sri Lanka.	(6 marks)	
08)	i.	Name four sectors of focused under Agricultural Technology.	(3 marks)	
00)	ii.	Describe how agricultural technology developed under Green Revolution	(5 marks)	
	iii.	Explain the agricultural monopoly which is a major problem that has arisen due		
	111.	modern agronomic methods.	(6 marks)	
			· /	
	117	Describe with examples three techniques used in eco - friendly organic agricultu	ro (8 mortza)
